

INGOLD SOLUTIONS GMBH

Information Security Policy for Supplier Relationship (Ref No: - ISMS/IS/5.2/9)

Apart from large format global service providers that include Google, Microsoft, Amazon, Zoho, Go Daddy, Freshworks, etc. we do not provide any access to any other 'Supplier' or even 'Clients' to any of our internal 'Information' or 'Data'.

We have voluntarily accepted and agreed to the legal framework of these digital service providers in the firm belief that these are among the best and most accepted business practice in terms of 'Information Security pertaining to the 'Supplier' or 'Service Provider'.

For the rest of the 'Suppliers' or 'Service Providers', information security is currently not a concern area.
